

Mounting your “Home” share on Mac

- Every user of the LEQR has his own home share
- This share can be connected to every server in the LEQR network
- You can mount this share to your local computer to access the generated data

1. Press “cmd & k”, Connect to Server Menu
2. type the following path: `smb://clapton.wiwi.hu-berlin.de/<username>`

3. Now you will be asked for your “username” and “password”
4. Enter the credentials you find on the last page of this document
5. Press “cmd & ,” to open Finder Preferences
6. Select Sidebar – check Computer under Locations.
7. Click on <your Computer> in the Finder and you will see your Homeshare.
